

## *Diversity:*

*Gaining a global perspective in a small town environment.*

## *Xenia Community Schools*

**P**eople are different...no two ways about it. At Xenia Community Schools, we celebrate the diversity offered by our students, teachers and staff.\*

As our world gets smaller, it becomes more critical that all of us learn to work with each other, live with each other and most importantly, appreciate the differences among us.

### ***Xenia students benefit from a diverse student population in many ways:***

- As our world becomes smaller and cultures increasingly work side-by-side, our graduates enter their adulthood respectful of the differences in cultures.
- Our students understand that although everyone may have different financial resources, opportunity exists for all through hard work and discipline.
- Our students and graduates demonstrate tolerance for those with differing opinions or cultures within a community.

**Respect.**

**Understanding.**

**Tolerance.**

\*79.3 percent, White not Hispanic; 14.9 percent, Black not Hispanic; 4.3 percent, other; .8 percent, Hispanic; .5 Asian; and .2, Native American.
